MOREOVER ENJOY VIEWING THE COMPLETED STEREO EFFECT USING YOUR 35MM SLIDE PROJECTOR WITH STITZ STEREO PROJECTION STAND OR THROUGH STITZ VIEWERS.

43-1 SA-1

UNIVERSAL STEREO ADAPTER (MODEL SA-1)

The Adapter fits every make of 35 mm SLR. camera with standard lens or tele-photo lens, by fitting it to the front of the lens by means of interchangeable ring, provided the focal length is from 55 mm upto

Net Weight: 380 gr.

CARRYING CASE WITH SHOULDER STRAP

Net Weight: 250 gr.

PLASTIC CAP

Net Weight: 16 gr.

300 mm. With it you can take striking Stereo Pictures of the subject at every distance up to infinity and enjoy not only viewing the completed Stereo Pictures through the STITZ Stereo Viewers but also projecting the Stereo Slides on the STITZ Stereo Screen using an ordinary 35 mm slide projector. Note: Even with some type 50mm standard SLR. Camera, it proves perfect stereo without any vignette.

PLASTIC CAP (SA-1)

This protects the front of the Stereo Adapter.

CARRYING CASE WITH SHOULDER STRAP (SA-1-2)

Of very neat design, holds the complete outfit (the Stereo Adapter accompanying the Plastic Cap and a piece of the Ring) safe in expanded styrofoam. Very easy on adjustable shoulder strap.

43-2 SA-1-1

SCREW-IN TYPE INTERCHANGEABLE RING (SA-1-1)

There are prepared for the Rings in diameter sizes, 46 mm, 48 mm, 49 mm, 52 mm, 55 mm, 58 mm, 40 mm, 40.5 mm, 62 mm, 67 mm,

72 mm, & 77 mm, which are the same in diameter as the ordinary screw-in type filter in use for your camera lenses.

Net Weight: about 30 gr.

43-3 SV-1

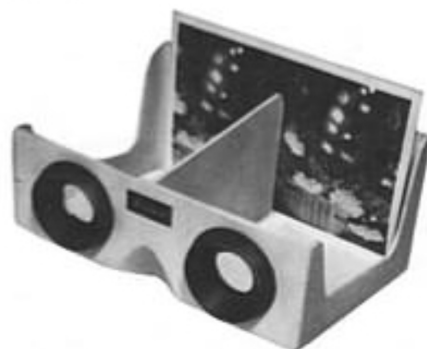

Net Weight: 460 gr.

ILLUMINATED STEREO VIEWER (MODEL SV-1)

For viewing your completed stereo reversal color slides. Independent focusing for each eye, adjustable for width between eyes. The power source is two pen-light (UM-3) type batteries obtainable everywhere. Viewer lights automatically when the slide carrier moves to the "on" position. The carrier holds a double color slide and moves left or right.

43-4 SV-2

Net Weight: 75 gr.

HANDY STEREO VIEWER (MODEL SV-2)

A molded plastic viewer designed specially for viewing both color & B&W positive prints. Independently adjustable for width between eyes, too. Very light weight and neat.
